CHAKIR NISRINE
FULL-STACK DEVELOPPER

📍 Lot El Ouafaa Nr 32, Temara ✉ nisrinechakir237@gmail.com 📞 +212652370332

SUMMARY

A motivated software engineering student with a strong technical foundation, eager to apply my development skills and knowledge to innovative projects. Enthusiastic and detail-oriented, I thrive on solving complex problems and contributing to impactful solutions.

EDUCATION

HIGHER NORMAL SCHOOL OF TECHNICAL EDUCATION (ENSET) - MOHAMMEDIA　　**2023 - 2026**

- Degree in Software Engineering & Distributed Systems

HIGHER SCHOOL OF TECHNOLOGY (EST) - SALÉ　　**2021 - 2023**

- University Diploma in Software Engineering

SALMANE EL FARISSI - TÉMARA　　**2019 - 2021**

- Baccalaureate in Physics and Chemistry

SKILLS

- **Langages** : Java SE, JavaScript, HTML, CSS, Nodejs, Python, C, C++, Java, PHP, Kotlin, Dart, PERL, XML, XSL
- **Frameworks** : Laravel, VueJS, React, Angular, Flutter, Jetpack Compose, SpringBoot, CodeIgniter, TailwindCSS
- **Databases** : MySQL, SQLite, SQL Oracle, NoSQL, MongoDB, Redis
- **Tools and technologies** : JavaFX, Git, GitHub, Docker, Figma, Jira, RestAPI, J2EE, MultiThreading, Visual Studio
- **Operating Systems** : Linux, Windows, RedHat, Ubuntu

EXPERIENCE

MTDS - Rabat Agdal　　JUIN - JUILLET 2024
Web Developer

- Conducted client requirements analysis and translated business needs into technical specifications
- Designed and implemented scalable system architectures for web applications
- Developed responsive front-end interfaces using TailwindCSS and built robust back-end systems with Laravel
- Integrated relational databases (MySQL) and optimized queries for performance
- Deployed application via cPanel with proper server configuration and security protocols

MTDS - Rabat Agdal　　AVRIL - JUIN 2023
Web Developer

- Developed web applications using Laravel & TailwindCSS
- Designed database architectures and deployed solutions via cPanel
- Collaborated on full project lifecycle from analysis to deployment

Casanet - Hay Riad　　JUIN - JUILLET 2022
Frontend Developer

- Built responsive UIs.
- Ensured cross-browser compatibility and mobile optimization
- Worked with UX designers to implement visually appealing interfaces

LANGUAGES

- Arabic (Native)
- English (Fluent)
- French (Intermediate)

PERSONAL PROJECTS

PFE - Medical Appointment System. Developed web platform with Vue.js frontend and Laravel API backend

PFA - IoT Equipment Monitoring. Created Flutter dashboard with ML integration for real-time failure detection
